South Central Telcom LLC's demonstration of complying with applicable service quality standards and consumer protection rules:

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The Commission found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement” and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

South Central Telcom LLC (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company is subject to consumer protection obligations under the Kentucky Revised Statutes (KRS) and Kentucky Administrative Regulations (KAR). These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of KRS Chapter 278.160 which discloses rates, terms and conditions of service to customers; (2) adherence to Kentucky state consumer protection requirements governing telephone providers which include Consumer protections and Anti-Slamming Procedures

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

⁴ *Id.* at n. 72.

as identified in KRS Chapter 278.535; (3) truth-in-billing requirements as required in Administrative Case No. 306 and 807 KAR 5:006 Section 7; and (4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order* when it becomes effective.

South Central Telcom LLC's demonstration of ability to function in emergency situations:

South Central Telcom LLC ("Company") hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)¹. The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, South Central Telcom LLC ensures each central office building is supplied with standby generators and battery back-up that enable the central office to keep running for at least the minimum of four (4) hours, or until system changes are made to reroute traffic.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."
